

1000

- | | |
|---|----------|
| <p>1. Standard Error Statistic (SE)</p> <p>• Standard Error of Standard Residual (Mean, correlation, standard deviation of all scores for a measure)</p> | SE 0.000 |
| <p>2. Partial Residual Statistic (PR)</p> <p>• When standard error of Standard Residuals (standard deviation, three years, age, density estimate of all scores) cannot be used (density)</p> | SE 0.000 |
| <p>3. General Linear Statistic (GLS)</p> <p>• Partial Residual Statistic (standard error of all scores) and Standard Error (Standard Residual, Standard Error, Standard Error of all scores)</p> | SE 0.000 |
| <p>4. General Linear Statistic (GLS)</p> <p>• Standard Error of Standard Residual (Mean, correlation, standard deviation of all scores for a measure)</p> | SE 0.000 |

| | |
|---|------------|
| ■ Minimum Temperature Temperature should not be lower than 10°C (50°F) when using the product. Refer to the label. | 15.000.000 |
| ■ Pesticide Hazard Potential This product is classified as low hazard according to the GHS hazard system. | 15.000.000 |
| ■ Permissible Residue (%) Residue level should be less than 0.05 mg/kg when the product is used according to the label. | 15.000.000 |
| ■ Resistant or Susceptible Populations (%) The product is effective against susceptible populations. It is not effective against resistant populations. | 15.000.000 |

100

- [illegible]

Little League (Under 12)
